BATTERY ANALYSER

HRC9372C HRC Battery Analyser & Balancer V8.0

The HRC Battery Analyser V8.0 is compatible with all kind of battery (LiPo, LiFe, Lilon, NiMH and NiCd). It also features a new servo test function.

It allows you to check your battery in a very fast and easy way, by showing you all the information about the charging status of every single cell (LiXX) in the pack. It shows the voltage and capacity of the complete battery, with the actual level of charge displayed in percentage.

With the included balance function you will be able to maintain your battery. Just use the balance function before each charge to increase the performance of your batteries!

SPECIFICATIONS

- ◆ 1S to 8S balancer input via JST connector
- ◆ 1 to 8 cells NiXX input via JR connector
- ◆ Measures overall voltage, remaining capacity, single cell voltage, lowest cell voltage, highest cell voltage and voltage difference between highest and lowest cell.
- ◆ Datas are displayed on a large LCD display
- ◆ Integrated balance function
- ◆ Integrated servo test function
