

1/8 Buggy Tires

World Champion 2012

PRO CIRCUIT

MARATHON

PC1001-YE Marathon - White - Mounted - 2 pcs

Like the name suggest ProCircuit wanted to make a tire with optimum tread wear and easy to drive characteristics that would last longer and work better in a multitude of conditions and a variety of track surfaces from loose to high traction. So after several sessions designing, and receiving inputs from team drivers, they developed what would be their first tire. Many tests later in different tracks all team drivers reported these tires are safe, give security and offer racers a confidence inspiring performance. Drivers also compared our first tire with other leading tires and reported that last much longer, so that is where they got the name Marathon. At the very base of the tire pattern is a "T" pin design which provides grip at a time when most tires are left bald.

SWEET SHOT

PC1003-YE Sweet Shot - White - Mounted - 2 pcs

The Sweet Shot offers drivers a tread pattern for the most challenging track conditions, while maintaining incredible grip across a wide variety of track surfaces. It offers drivers consistent handling on outdoor racetracks with a little bit of loose dirt and really stands out in loose to loamy track conditions. With the centre bars you can expect this tire to deliver the power to the ground. The Sweet Shot are a specialty tire that when matched to the appropriate track can provide amazing results. It provides awesome forward traction, fantastic response as well as quick corner speeds.

HOT DICES

PC1005-YE White - Mounted - 2 pcs

The HOT DICES tire features a medium size dice cube lugs with perfectly balanced tread spacing for maximum forward traction. The two outer rows of lugs deliver a quick corner speed, a very stable an easy to drive feeling and predictable side bite. It offers drivers consistent handling on outdoor racetracks with blue groove or a little bit wet and really stands out in no dust and high grip track conditions. This tire will give your buggy qualifying speed with tread life capable of handling hour long A-mains due to its good wear characteristics.
