

H3 Starter Box

HARD

HARD6510 - HARD H3 Starter Box

Today's high powered RC engines are big, they're beefy, and can generate some serious road pounding torque. Starting these engines requires a serious starter box. Especially in the heat of competition or on a factory fresh engine that needs to be broken in. If you're looking for a starter box that's lightweight, sturdy and with enough power and flywheel churning muscle to get the job done... you've come to the right place!

We here at H. A.R.D. know that the right equipment can mean the difference between crossing the finish line first and not even getting to the starting line. That's why we developed the high powered H3 On-road and Off-road Starter Boxes.

Features:

- Smart design
- Easy to adjust
- High Quality construction

HARD6510F
HARD6510N

H3 Starter Box - Off Road pre-set
H3 Starter Box - On Road pre-set

Hi-Torque 775 motor

Easy to handle design

Smart packaging

Easy to access battery compartment
