New production of tire holder for 1/10 touring

116068BK Team Magic has design the device for customers to maintain their 1/10 touring car's tire easily and efficiently. There are some charmed features by following

- Strong fixation

The appearance comes with a plastic rod that has shaped and equaled space of threads. The bottom of rod there is rounded plate to hold the tires rigidly when it put tight on cap installation from top.

- Easy to utilize

This amazing tool is convenient and faster to be apart of tire holder and tires as well as easy to collect and organize for client's lovely tires.

- Easy to adjust the tense

the cap is well-matched with the rod and users can facilitate to adjust any positions as their expectation.

Moreover, it can apply to hold tight or loose for tires settling by customers and they do not concerns about the tires will spread out and go rolling around all the time.
